

Arm & Body Protection

2045

Innovation intertwined with safety. That's the DNA of the Helix® Series. Made from recycled polyester, the 18-inch Helix® 2045 arm sleeve features a strong yet extremely dexterous 13-gauge knit that's eco-friendly and fiberglass-free, all while offering incredible level A5 cut resistance.

The 2045 comes complete with a thumb loop at the hand and an adjustable hook-and-loop closure on the upper arm to prevent dirt and debris from entering the sleeve and to give the wearer a secure, customized fit no matter the application.
