MX225 Planet Series

With a 29% carbon footprint reduction compared to our regular MX225, the MX225 Planet Series features a redesigned, lightweight frame with soft, low-pressure side arms in a breathable DNA shape that delivers excellent flexibility, ventilation, and grip.

The MX225 Planet Series frame includes up to 65% recycled material, while the lenses are made with 100% mass-balanced polycarbonate complete with proprietary, permanent anti-fog and scratch-resistant TruShield® coating that won't wash off over time.

Additionally, Planet Series packaging is recyclable and cartons are made of 100% recycled content.

Protective devices do not provide unlimited protection. Some operations may require machine guards, face shields, special filter lenses, or other safety equipment. Safety eyewear does not provide complete protection against hazards, and should only be used in conjunction with the prescribed safety equipment for the application as well as defined safety practices.

UVEX SAFETY GROUP GmbH & Co. KG, parent company of HexArmor®, has achieved a Gold EcoVadis Rating, placing us in the top 5% of sustainable suppliers globally.
