OXXA®
SAFETY PRODUCTS

4141

PROTECTION FROM THE INSIDE, OUT

These gloves are treated with Sanitized® hygiene function to inhibit bacteria, therefore minimizing odor development and promoting freshness. Active biocidal substance - Zinc pyrithione

REACH is a regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals. It also promotes alternative methods for the hazard assessment of substances in order to reduce the number of tests on animals.

The OEKO-TEX® Standard 100 is a test and certification system that tests for harmful substances, legally banned and controlled substances, and chemicals that are known to be harmful to health, as well as parameters serving precautionary purposes.
