

Ceros® XP200E Comfortable, premium safety helmet

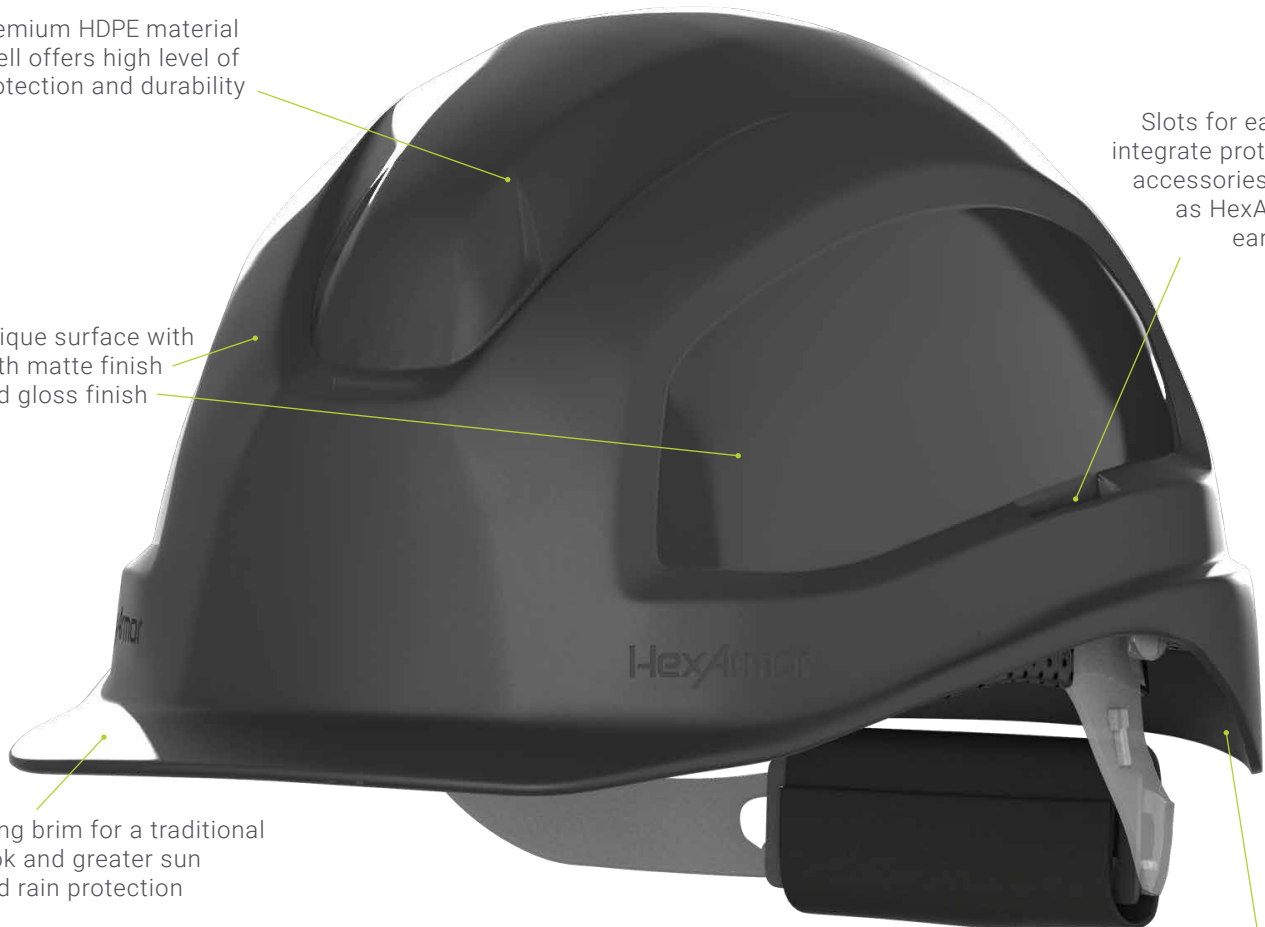

It's time to expect more from your head protection. Engineered to raise industry standards in comfort and fit, the HexArmor® Ceros® family of safety helmets brings you a technologically advanced safety helmet for all workers, with configurations for any industry or application that require a Type I Class C and Class E safety helmet. Ceros® – for compliance without compromise.

Premium HDPE material shell offers high level of protection and durability

Unique surface with both matte finish and gloss finish

Long brim for a traditional look and greater sun and rain protection

Slots for easy-to-integrate protection accessories, such as HexArmor® earmuffs

Unique back-of-head coverage offers up to 17%* more protection from falling or deflected debris

XP200E

Non-Vented Class E

- Type 1, Class E, LT
- Sizes 6 ³/₈ – 8
- Helmet shell is fully enclosed, making it suitable for electrical work

Protective devices do not provide unlimited protection. Some operations may require machine guards, face shields, special filter lenses, or other safety equipment. Safety helmets do not provide complete protection against hazards, and should only be used in conjunction with the prescribed safety equipment for the application as well as defined safety practices.

*The top four competitive North American helmets were compared in testing.
