

HAND PROTECTION

Triple Dipped PVC Low Temperature Gloves

DESCRIPTION

These premium super flexible triple dipped PVC gloves feature a seamless brushed terrycloth lining that keeps your hands warm and dry. The liner flexes with the glove allowing freedom of movement and reducing the hand fatigue associated with working in cold environments. The triple dipped PVC is specially formulated for handling of chemical residues, oils, or greasy materials. This specially formulated PVC stays flexible in temperatures down to -5°. The sandpaper grip enhances handling of objects wet or dry.
