

# DOUBLE DIPPED PVC CHEMICAL RESISTANT GLOVE

## DESCRIPTION

Featuring a sand paper grip, this 12 inch glove is double dipped with PVC on a seamless cotton liner. It is specially formulated for handling of chemical residues, oils, or greasy materials and stays flexible in temperatures down to -5°. It has also been treated with Actifresh® to minimize the bacteria that leads to odors.

## APPLICATIONS

- Oil & Gas
- Chemical Handling
- Automotive
- Mining
- Petrochemical
- Maintenance

## FEATURES

- PVC stays flexible in cold temperatures
- Double dipped for increased chemical protection
- Sandpaper grip enhances wet and dry grip
- Orange color allows for quick recognition
