

North® 15 Mil, 8" Port Hand Specific Neoprene Glovebox Glove - 32"

- Neoprene is a soft flexible material that provides high permeation resistance to vapors and gases while also providing resistance to a broad range of chemicals like oils, greases, fuels, and acetones
- Neoprene offers good elongation and high flexibility for free movements when working inside of the box
- Complies with USDA and FDA regulations, 21 CFR, for use in food processing
- Rolled bead cuff resists tearing, improves donning strength and maintains a secure seal on glovebox ports
- Available in sizes 8.5", 9.75" and 10.5" (palm diameter)
- Smooth finish for low friction, improved dexterity, and precise glovebox handling
- Made in the USA
