

LENS Red Mirror Performance Fog Technology

FRAME Shiny Black

DESCRIPTION

These Whipray™ safety glasses feature frames made with TR-90 material. TR-90 frame technology is extremely comfortable and can bend under pressure resulting in a custom contoured fit for all-day wear. The one hundred percent visually correct cylinder lens is sculpted at a ten-base curve for superior coverage and crisp visual acuity. The BH32510PFT features a PFT lens. Thanks to its chemical and physical properties, Performance Fog Technology is a permanent coating that prevents the formation of condensation on the lenses by absorbing the humidity drops.

TECHNOLOGY

All Bullhead Safety® Eyewear is made from 100% virgin materials. This style features lenses constructed with the highest quality polycarbonate and frames made with TR-90 (thermoplastic composition) material.
