

# BULLHEAD SAFETY® EYE PROTECTION

## BH33522PFT

**Lens** High-Definition (HD) Performance Fog Technology

**Frame** Crystal Gray

### Description

The Lionfish™ is a lightweight full-frame design that boasts pop-lock temple hinges that easily snap open and shut. The dual lenses have a 6-base curve and give the user a stylish look. Featuring inset TPR on the nose bridge and temple ends, this style is adaptable to any environment.

### Features

- High-Definition (HD) Lenses: Designed to enhance visual contrast and reduce eye fatigue, this lens balances brightness and contrast perfectly, ensuring relaxed vision across changing light conditions. The HD lens has exceptional clarity in both indoor and moderate outdoor environments.
- PFT - Performance Fog Technology lens: Better than traditional anti-fog! This water-washable, hydrophilic anti-fog lens coating is permanently bonded to the lens to absorb moisture and evenly disperse it, providing clear, fog-free vision
- Precision lenses block blue light rays, which reduces eyestrain, increases visual acuity, and protects from the long-term effects of blue light exposure
- The violet-rose tint filters blue light, softens glare, and sharpens detail. Ideal for precision tasks, yet equally comfortable for everyday outdoor use.
- Dual 6-base curve lenses give it a flat front-facing appearance

### Technology

All Bullhead Safety® Eyewear is made from 100% virgin materials. This style features lenses and frames constructed with the highest quality polycarbonate.

 <b>Z87+</b> MEETS ANSI/ISEA Z87.1-2020 STANDARDS	 MEETS ANTI-FOG STANDARD	 MEETS MILITARY SPECS FOR BALLISTICS	 ERGONOMIC FIT RELIEVES PRESSURE	 ANTI-SCRATCH HARD COAT TREATED LENS
