Miller® DuraHoist™ One-Piece Adjustable Mast

- Constructed from lightweight high-strength aluminum for easy handling and long-lasting use
- Modular design allows for flexible configurations, reducing costs and enhancing safety
- Adjusts from 74 to 89 inches; offsets range from 12 to 29 inches
- Components are tool-free and manageable for easy storage, transport, and setup
- Works with various lower mast extensions and multiple winches/lifeline systems
- Ideal for confined space entry, rescue, positioning, and personnel/material handling
