### Miller® GlideLoc® Fall Arrester for Vertical Rail System - Detachable Anywhere Along Rail

- Designed for smooth and comfortable climbing, accommodating all user experience levels and climbing styles
- Aluminum, stainless steel, and polymer construction designed for durability
- Stainless steel shock absorber for extended service life and corrosion resistance
- Automatic fall arrest even in incorrect usage scenarios
- Triple-action, self-locking carabiner for secure connection
- Visual fall indicator enables instant inspection after deployment
- Compatibility with all GlideLoc guide rails installed since 1982
- Operates in extreme conditions (-40°C to +70°C)
- Effortless Climbing: Smooth ascent and descent with minimal effort
- Meets ANSI, CSA, and EN standards for international fall protection programs
