

CHROME SLT® 4074

Built for use in warm environments, the Chrome SLT® Oasis 4074 was crafted with a breathable HexVent® material on the back-of-hand to keep hands cool in a wide array of applications. A synthetic leather palm delivers an ultra-high abrasion-resistant grip for dry or light oil situations, while an interior knitted liner provides A5 cut resistance. Complete with a reinforced index finger and thumb saddle, the 4074 is touchscreen compatible and includes a SlipFit® cuff with a hook and loop closure for a secure fit. Plus, synthetic leather forchettes, thumb saddle, and index finger wrap provide extended use in traditional wear areas. Our Chrome SLT® gloves were designed with the ultimate comfort in mind, providing unsurpassed dexterity while maintaining cut and puncture resistance, keeping your hands safe and comfortable all day long.
