

# BULLHEAD SAFETY™ HEAD PROTECTION

## Premium Cooling Sweatband, Blue and Black Self-Wicking Polyester

### DESCRIPTION

This premium head protection padded sweatband is breathable and made from antimicrobial treated self-wicking polyester material featuring proprietary evaporative cooling technology. It has a blue exterior and black interior with hook-and-loop and hook-slot suspension attachments that provide a universal method of donning. This sweatband is compatible with Bullhead Safety HH-BC1, HH-C1, HH-C2, HH-C3, HH-F1 hard hats, HH-CH1 climbing helmets, and HH-A1 replacement suspension. In addition, the universal attachment feature makes this sweatband compatible with most head protection products. Sold by the inner dozen pack.

Three pieces are packaged together in a polybag for retail sale.

INDUSTRY		
Construction	Heavy Infrastructure	Oil and Gas Refining
Demolition	Manufacturing	Road Work

### ITEM HH-A3

### FEATURES

- Breathable padded design provides comfort while wearing head protection for extended periods of time
- Proprietary material offers advanced evaporative cooling technology, providing advanced air circulation and breathability, for an enhanced cooling experience and heat stress relief
- Easily attaches to head protection suspensions using the attached hook-and-loop closures
- Features four holes that align with the preexisting hook-slots on many head protection suspensions
- Antimicrobial treatment to reduce bacteria that cause odors and can lead to dermatitis

- Universal attachment method allows these to be used on many other head protection products in the marketplace
- Compatible with our HH-BC1, HH-C1, HH-C2, HH-C3, and HH-F1 hard hats, HH-CH1 climbing helmets, and HH-A1 replacement suspension
- 3 per pack, 4 packs per inner dozen pack, 12 inner dozen packs per case

#### Activation instructions:

- Soak sweatband in cool water
- Wring out the excess water gently
- Snap the headband by pulling each end to its full length three times
- When extremely hot and humid, keep the sweatband extra moist for optimal cooling
