

# BULLHEAD SAFETY™ HEAD PROTECTION

## Dielectric Adjustable Bracket for Climbing Style Protective Helmets

### DESCRIPTION

This dielectric plastic bracket fits climbing-style protective helmets and is made with durable nylon material. This bracket accommodates a variety of face shields and cap-mounted hearing protection. The telescoping temples provide more versatility while the pivoting action allows users to lift the face shield during use.

Each item is individually packaged in a polybag for retail sale.

\*Hard hat, visor, and earmuffs not included. Shown with HH-CH1-W climbing helmet, HH-V5 visor, and HP-M3 earmuffs (sold separately).

### ITEM HH-PB3

### FEATURES

- Easy installation by snapping into accessory slots of Bullhead Safety™ climbing-style protective helmets
- Accommodates a variety of face shields
- Integrated earmuff adapter allows for the use of cap-mounted hearing protection and is uninterrupted when adjusting face shield positions
- Pivoting action allows for face shields to be propped and secured in fully up and halfway up positions or resting downward on the brim of the protective helmet
- Dielectric/nonconductive construction
- Meets ANSI/ISEA Z87.1-2020 high impact standards
