LED STAIRWELL FIXTURE

FULLY SELECTABLE

DESCRIPTION

The LED Stairwell Fixture is a modern, energy-efficient, linear lighting solution specifically designed for limited use areas such as stairwells. Equipped with a microwave occupancy sensor and daylight sensor, the fixture reduces energy use by automatically adjusting its output based on occupancy and available light in the space.

Designed with versatility in mind, the fixture includes adjustable color temperature as well as adjustable wattage, allowing the installer to fine-tune the fixture to better meet the needs of the application.

The fixture can be surface, suspension, or surface mounted and its lightweight, two-piece design makes installation quick and easy, reducing overall project time.
