

The Hospeco™ Lightweight Microfiber Cloth is designed to deliver exceptional cleaning performance, durability, and absorbency for commercial, industrial, and janitorial applications. Constructed from a premium 80% polyester and 20% polyamide blend with a 200 GSM pile, the split microfiber fibers effectively lift and trap dust, dirt, liquids, and grime for faster, more efficient cleaning with fewer passes. The soft, scratch-free material is safe for use on glass, mirrors, stainless steel, countertops, and other delicate surfaces, leaving a streak-free finish whether used wet or dry. Durable enough to withstand frequent laundering and repeated reuse, this versatile microfiber cloth also supports color-coded cleaning programs to help reduce cross-contamination, making it an economical and reliable choice for everyday cleaning tasks.

Key Features

- Lightweight for quick wipe-downs
- Good for high-turnover environments
- Picks up dirt better than cotton
- Works well dry or with cleaning solution
- Affordable option for high-loss areas
- Washable and reusable multiple times
