Generously Sized Sleeve is Durable, Long Lasting

WITHOUT THUMBHOLE

WITH THUMBHOLE

WIDE ELASTIC BAND

APPLICATIONS

Metal Fabrication
Glass Handling
Automotive
Paper Manufacturing
Construction
Appliance Manufacturing
Aerospace

FEATURES

For workers who have larger arms, the MS-2X1HA sleeve is a great solution, delivering ANSI A4 cut protection plus all day wearability. This ATA® Hide-Away™ sleeve features Worldwide's own ATA® Advanced Technology Armor fiber technology plus Hide-Away yarn to provide significant cut and abrasion resistance in a looser, highly stretchable design. So it can be worn comfortably over clothes or directly on the arm. The dark Hide-Away fiber means the MS-2X1HA sleeve washes easily, hides dirt and stains so it looks newer longer. Made in the USA.
