

New Winter 2018

Pyramex hi-vis work wear has been independently tested for various standards and certifications. Use the quick key (ANSI • CSA •) on the following pages to reference product models that meet these standards and certifications. Use the dots next to each part number to reference which options meet the standards and certifications.

HI-VIS TYPE R / CLASS 3

RSZH3320 • M, L, XL, 2XL, 3XL, 4XL, 5XL

ANSI/ISEA 107-2015 TYPE R CLASS 3

Type R provides daytime and nighttime visual enhancement for workers in occupational environments, which include exposure to traffic from public access rights-of-way, roadway temporary traffic control (TTC) zones, or work vehicles and construction equipment within a roadway TTC zone. Performance Class 3 can offer greater visibility through a full range of body movements in both complex and non-complex backgrounds by having retro-reflective and combined performance materials on sleeves.

CAN/CSA Z96-15 CLASS 2 LEVEL 2

Level 2 is the highest retro-reflective performance material and is visible under dark conditions from a great distance. Retro-reflective material also reflects light produced by the headlights of oncoming traffic back to the vehicle operator. Performance Class 2 provides moderate body coverage and superior visibility. To comply with CSA standard apparel has to fully cover the upper torso (front, back, sides and over the shoulders) with the reflective striping composed of retro-reflective or combined performance materials. X-back is used to distinguish whether a worker is facing toward or facing away from a hazard. X-back configuration is mandatory in Canada, but can be used for ANSI apparel.

HI-VIS TYPE R / CLASS 3

RCP32 Series ANSI • CSA •

CSA (LEVEL 2) CLASS 2 ANSI (TYPE R) CLASS 3

POCKETS	
4 OUT	1 IN

Weatherproof hi-vis polyester shell with quilted lining // Elastic band at the wrists // Cell phone/radio chest pocket with clear panel, mic tabs and pencil pocket // 2 storm flap snap pockets // Concealed hood // Zipper front closure
