

PPE VENDING SOLUTIONS

Features

Save Money

Reduce the usage of daily consumables and overall costs through employee accountability.

Easy Reports

Hundreds of report variations can give you information on product usage, employee usage and more.

No Internet Issues

Our vending machines use a cellular connection. Eliminating downtime from loss of internet connection or firewall issues.

Manage Employees

Our software allows you to manage and add new employees. Limit employees usage and the type of supplies they are allowed to get.

How It Works:

Save money and limit consumption by controlling what supplies each employee is allocated per month, week, or even day.
