Miller® QuickPick Standard Kit Complete Standard Rescue Kit, Professional Grade

- Delivers peace of mind during unexpected and stressful peer-rescue situations
- Reliable design allows the rescuer to remotely attach the system to the suspended worker while remaining securely anchored
- All components are contained in one easy-to-store kit with no assembly necessary - only requires an overhead anchorage
- Standard kit is designed for users more experienced with rescue, and provides an economical kit configuration
- Efficient hauling system with a 4:1 lifting ratio, making heavier loads easier to lift
- Complies with OSHA and ANSI Z359.4-2013 for assisted rescue and self-rescue systems, rated for up to a 310 lb user
- Kit Contents: Pulleys, rope, rescue pole with clip, pigtail rope control handle, carabiners, and cross-arm anchorage connector, Miller WristBandit tool lanyard, kit bag, and pole bag
