### Miller® QuickPick™ 12' Aluminum Rescue Pole

- Extendable 12 feet design for remote rescue operations
- Made from aluminum and fiberglass for strength and lightweight handling
- Complete kit includes carabiner clip, pigtail, Miller WristBandit™ tool lanyard, and carrying bag
- Out-of-the-bag solution, no assembly required, ready for immediate use
- Designed for use with QuickPick Rescue Kits
- Allows rescuers to securely attach the system to a suspended worker while remaining anchored, reducing risks
- Quickly raises or lowers a fallen worker to safety, minimizing suspension trauma
- Suitable for various industries, including construction, manufacturing, oil and gas, and utilities
- High-quality materials and compliance with safety standards ensure dependable operation in critical situations
