

### Lens Clear Performance Fog Technology

### Frame Black and Gray

### Description

The Flux™ lightweight wraparound safety glasses deliver clear, reliable protection in a compact, ergonomic design. The single polycarbonate lens provides a wide field of view and features Tecton 400, UV400, and moisture-repellent coatings for consistent clarity in demanding conditions. A soft brow pad adds protection against dust and droplets, complementing the adjustable anti-slip nose bridge for stable, comfortable wear. Co-injected TPE temples offer both length and angle adjustment, allowing a personalized fit that stays secure through active tasks. Weighing only 24 grams, the Flux™ reduces fatigue while maintaining strong impact resistance, making it a practical everyday safety solution.

### Technology

This style features lenses constructed with the highest quality polycarbonate, temples made with Thermoplastic TR90, and the nose piece and temple ends made with Thermoplastic Elastomers (TPE) material.

### Features

- Tecton 400 Coating: Better than traditional anti-fog, this hydrophilic anti-fog lens coating is a strong, durable coating made for spreading condensation into a transparent film rather than droplets, providing clear, fog-free vision
- UV400 coating is a UV absorber added into the polycarbonate material, which enhances protective capabilities against harmful UV rays
- Telescoping temple arms provide a customized fit
- Inclinable temple arms allow for lens angle adjustment, providing a more customized fit
- Single-mold wraparound lens made with polycarbonate material
- Soft, adjustable, anti-slip nose bridge
- Soft brow pad protects eyes against dust and droplets
- Co-injected, dual-color (gray and black) flexible temple ends ensure a secure and comfortable fit
- Meets ANSI/ISEA Z87.1-2020 high impact standards
- Meets ANSI/ISEA Z87.1-2020 anti-fog properties standard
