

### Lens LED Anti-Fog

### Frame Clear and Green

#### Description

Engineered without single-use plastic and for use all-day in demanding industrial environments, Ligera Eco™ delivers superior eye protection in an ultra-lightweight, sports-inspired frame. Weighing just 16.5g, Ligera Eco™ offers exceptional comfort without compromising on safety. Its sleek 10-base curve design and integral nose piece ensure a secure, ergonomic fit, while dual-molded temples with TPE ends provide a snug, pressure-free grip for prolonged use. The high-impact resistant lens withstands extreme temperatures from 23°F to 131°F (-5°C to 55°C), making it the ideal choice for varied worksite conditions. With full wraparound coverage and optimal optical clarity, Ligera Eco™ ensures maximum safety, visibility, and wearer confidence in any industrial setting.

MEETS ANSI/ISEA

LIGHT RAYS

#### Technology

This style features lenses constructed with the highest quality polycarbonate, temples made with polycarbonate and Thermoplastic Elastomers (TPE), and the nose piece and temple ends made with TPE material.

#### Features

- Arida 400 Coating: Anti-fog lens treatment greatly reduces fog in hot, humid, and variable temperature environments. It disperses moisture which allows the water droplets to bead and clear during normal movement and airflow
- Precision lenses block blue light rays, which reduces eyestrain, increases visual acuity, and protects from the long-term effects of blue light exposure
- Lightweight frameless design with slim wraparound style lenses
- Panoramic lenses offer full wraparound protection and optimum vision
- Sleek sports design with a 10-base curve
- Super lightweight with just a 16.5 gram weight
- Dual molded temples with TPE temple ends for maximum fit and comfort
- High-impact resistance under extremes of temperature (23 to 130°F)
- Meets ANSI/ISEA Z87.1-2020 high impact standards
- Comes in a microfiber pouch made from 100% recycled material, no single use packaging.
