

Stream™ Evo Foam Insert and Headband Combination with Headstrap

Description

This foam insert and headband combination delivers advanced protection and comfort for demanding industrial environments. Designed with a close-fitting gasket and headband, it ensures a secure, snug fit that keeps eyewear firmly in place during intense activity. The elasticated, pivotable headband easily adjusts to various head sizes and positions, providing comfort for prolonged wear. Its sealed design effectively prevents the ingress of dust and debris, making it ideal for dusty or high-particulate work areas. Constructed with Tempflex and soft TPE material, this eyewear accessory offers flexibility and durability while maintaining an ultra-lightweight profile. With a dielectric, sports-style frame, this insert delivers not only safety and performance but also a modern aesthetic—perfect for professionals who demand both protection and style on the job.

Features

- Elasticated pivotable headband can adjust to a number of positions and head sizes for comfortable wear
- Seals eyewear, preventing ingress of dust and debris
- Close fitting gasket and headband that ensure a snug fit to hold the glasses in place
- Dielectric/nonconductive construction
