Miller® Xenon™

Permanent Horizontal Lifeline Kits - shuttle sold separately

- Offer an easy DIY installation with patented stainless steel components designed for user-friendliness and minimal upkeep
- Their adaptable design allows for seamless passage of intermediate brackets
- A double-locking mechanism ensures security while enabling one-handed operation
- Innovative 4-in-1 shock absorber functions as a shock absorber, turnbuckle, tension indicator, and fall indicator
- A pop-out visual alert notifies users of any load impact on the system
- Compact design shortens the distance to end brackets, enhancing safety during entry and exit
- The fixed pass-through components make the shuttle ideal for dusty or corrosive environments
- Universal intermediate brackets feature an automatic pass-through design for smooth integration with the Xenon shuttle
- The single-bolt installation and easily removable cable holder simplify setup and maintenance
