

# Industrial-Grade Fans, Reimagined for the Home

Designed for powerful performance and premium cooling. **Despite its compact size, it delivers high-velocity airflow, ensuring you stay cool and comfortable in any small space.** Perfect for workshops, garages, and smaller residential spaces, you'll experience unmatched durability and cooling efficiency.

- Premium durability
- Superior components
- High-velocity airflow
- 3-speed controller
- 3-tilt positioning
- Designed in the USA
- Built-in handle and cord storage

# Blue Fans

## FEATURES

- **Powerful Airflow:** Equipped with efficiently powerful motors, these fans provides three adjustable speeds with airflows up to 3,500 CFM. Whether you need a gentle breeze or a powerful gust, Blue fans have you covered.
- **Industrial-grade Construction:** Featuring aluminum propellers and high-impact polypropylene housings, these fans are built to withstand tough environments while remaining lightweight and portable. The side-airflow and venturi-design hulls are signature Patterson fan components to ensure you feel maximum results with our efficient mechanical design.
- **Easy Operation:** Simply plug into any standard 115V AC outlet using the three-prong grounded plug and adjust the speed with the 3-speed controller. The 6-foot power cord provides the flexibility to position the fans wherever they're needed and can be neatly wrapped in the built-in hooks for a polished look.
- **Optimal Air Velocity:** Experience effective cooling with air velocities up to 450 fpm at 20 ft, 275 fpm at 40 ft, and 160 fpm at 60 ft, ensuring comprehensive air circulation in small rooms and open-air large areas.
- **Quiet Performance:** Operate as low as 67 dBA, balancing powerful airflow with manageable noise levels for a comfortable working environment.
- **Portable and Adjustable:** As the most lightweight commercial-grade residential fans on the market, Blue Fan are easy to move and feature multiple tilt positions to direct maximum airflow precisely where you need it. The base of the fans include non-slip feet to ensure your fans stay exactly where you place it.
- **Satisfaction Guaranteed:** If you don't love them, simply return them to us for a full refund. Customer is responsible for return shipping.

## 1400 SPECS

- **Blade Diameter:** 14 in
- **Number of Speeds:** 3
- **Voltage:** 115V AC
- **Motor HP:** 1/8 HP
- **RPM:** 1580 RPM
- **Amps:** .8A
- **Blade Color:** Silver
- **Cord Length:** 6 ft
- **Standards:** OSHA Compliant, UL 507, ETL Certified
- **CFM:** 2600
- **Weight:** 21 lbs
- **Head Tilt Adjustment:** 37°
- **Size:** H 29.25 in x W 20.13 in x D 9.3 in
- **Wiring:** 3-prong Grounded Plug
- **Drive Type:** Direct Drive

## 1800 SPECS

- **Blade Diameter:** 18 in
- **Number of Speeds:** 3
- **Voltage:** 115V AC
- **Motor HP:** 3/8 HP
- **RPM:** 1510 RPM
- **Amps:** 1.1A
- **Blade Color:** Silver
- **Cord Length:** 6 ft
- **Standards:** OSHA Compliant, UL 507, ETL Certified
- **CFM:** 3800
- **Weight:** 26 lbs
- **Head Tilt Adjustment:** 33°
- **Size:** H 32.6 in x W 20.13 in x D 9.94 in
- **Wiring:** 3-prong Grounded Plug
- **Drive Type:** Direct Drive

## 2200 SPECS

- **Blade Diameter:** 21 in
- **Number of Speeds:** 3
- **Voltage:** 115V AC
- **Motor HP:** 1/3 HP
- **RPM:** 1440 RPM
- **Amps:** 1.9 A
- **Blade Color:** Silver
- **Cord Length:** 6 ft
- **Standards:** OSHA Compliant, UL 507, ETL Certified
- **CFM:** 3500
- **Weight:** 32 lbs
- **Head Tilt Adjustment:** 37°
- **Size:** H 29.25 in x W 20.13 in x D 9.3 in
- **Wiring:** 3-prong Grounded Plug
- **Drive Type:** Direct Drive
