

#SPGC

Contender™

Middleweight 7-gauge Composite
Knit Gloves

#SPGC

#SPGC2D

These Middleweight Contender™ 7-gauge gloves are knit from a blend of composite filament fiber encased with tough, Cordura® nylon. You get that bare-knuckle feel with the unbeatable edge-dulling dexterity of composite knit.

On its own, composite knit fiber can be brittle. But, when wrapped securely with other types of yarn, it becomes fortified and significantly boosts cut resistance. They weigh 89 grams per pair.

To limit the risk of allergic reactions, all of our Canadian-made gloves are now crafted with latex-free materials.

Also available with both sides PVC dotted (#SPGC2D).

ABRASION

CUT

1680 grams of cut protection.

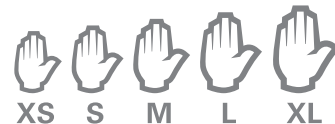

FEATURES

- Advanced composite yarns provide excellent cut resistance
- Composite filament fiber is securely covered with high-strength fibers so it cannot come through to the hands
- Unique spinning process helps cut and abrasion resistance stay consistent over entire surface of glove
- Excellent comfort, dexterity and fit in a seamless string knit
- PVC dotting on both sides for a stronger grip (#SPGC2D)

APPLICATIONS

Metal Fabrication
Automotive
Assembly
Glass Handling
Sheet Metal
